Loafing About

The George loafer by Fins for Him is the ultimate summer shoe for men. In designer Alexandra Finlay's own words they are 'classic, stylish, fuss-free, affordable and most importantly fun.' These rubber soled loafers are so soft and easy to wear and come in a variety of colours including 'The Hamptons - black', 'St Tropez - chocolate brown' and the outrageous 'Palm Beach - violet'. Perfect for beach life or just loafing around at the weekend, the shoes are a reasonable £80 per pair. At such good value, it would be entirely possible to own a pair in every colour.

Making Time

Inspired by the rev counter of the quintessentially Italian Alfa Romeo, Contagiri is the latest groundbreaking watch to be designed by Guiliano Mazzuoli. The watch creates a new system measuring hours and minutes using a single hand moving from 0 to 12. All models are limited edition, with ninety-nine produced in stainless steel with a diamond like coating, and for the real connoisseurs 10% will be made with a gold bezel and back.
